# Bauxite boom may bring \$billions\$ to region

Trucks like these could be filled with bauxite ore from around the region to bring millions, if not billions, of dollars to the region.

**Billions of dollars could flood the area with a new bauxite mine.**

Volcan Holdings' new technology has found the mineral where others have failed to do so in the South Burnett.

Chairman Pnina Feldman says the rocks can be picked from the surface of the ground and virtually no land will need to be ripped up.

Tens of millions of dollars and masses of jobs will be
